**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William C Schubert on 2/24/2005.

The application has been amended as follows:

**In the claims:**

Cancel claims 14-18.

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a circuit that comprises, inter alia, a transistor that connects an integrating capacitor and a dumping capacitor via an integrating node; the integrating node serves as an input to a comparator and the output of comparator controls a first switch connected between the integrating node and the transistor and a second switch connected across the dumping capacitor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2819
